RESEARCH EXPERIENCE

Research Group on Health Psychology, University of Leuven

The Leuven Research Group on Health Psychology aims at unravelling how psychological and somatic variables interact in health and disease from a biopsychosocial perspective.

Research fellow (January 2015 – present)

- Various ad hoc projects ranging from the role of autobiographical memory in depression, to the potential of VR for treatment of public speaking and to the effects of safety seeking behavior on fear reduction.

Applied Psychology, Thomas More University of Applied Sciences

Thomas More is the largest university of applied sciences in Flanders, offering over 50 bachelor and master degree programs in the province of Antwerp.

The expertise unit conducts applied, practice-oriented research in the field of psychology and technology. There is a strong focus on the interaction between both domains and the synergy they create, in particular within mental healthcare and human-technology interaction. More information can be found on www.e-mentalhealth.be.

Head of the Expertise Unit Psychology, Technology & Society (December 2016 – present)

Researcher (October 2013 – December 2016)

- Conducting and managing research on the possibilities of technology for psychology and vice versa. Selection of recent, larger projects:
 - o 2019 - 2021 **immersivcare.be**
immersive technologies for healthcare: project partner of a 476k TETRA trajectory funded by Flanders Innovation and Entrepreneurship & cofinancing by Flemish partners
 - o 2018 - 2020 **immersivetraining.be**
immersive technologies for training and education within organisations: project partner of a 471k TETRA trajectory funded by Flanders Innovation and Entrepreneurship & cofinancing by Flemish partners
 - o 2016 - 2019 nweurope.eu/eMEN
development and dissemination of e-mental health in mental healthcare: project partner of a 5.3M Interreg NWE project, funded by ERDF & own cofinancing
 - o 2015 - 2018 **carewear.be**
wearable technology in mental health care: project leader for 116k TETRA preparatory trajectory & 480k TETRA trajectory, funded by Flanders Innovation and Entrepreneurship & cofinancing by Flemish partners
 - Principal investigator for Belgian registered experiment study B322201732711.
 - o 2013 - 2015 **touch2learn.be**
mobile technology as a part of innovative teaching: research partner for education development fund study, funded by KU Leuven Association
- Human factor studies
 - o Shaping the design of medication packaging designs, by developing and running experimental research designs, together with LiCalab. In the studies, which take place in an international setting, we rely on partners from other EU-countries like The UK, Denmark and Germany, partners from Asia and Oceania (Australia, China and Japan) and Latin and South-America (Brazil, Colombia and Mexico).

Policy Research Centre on Welfare, Health and Family, University of Leuven

The goal of this center is to support the minister of welfare, health and family issues in pursuing an effective, innovative, and inclusive policy, and to do this by means of research results and empirical data.

Researcher (September 2009 – September 2013)

- 2011 Kleur Je Leven: Evaluating the possibilities of using an e-mental health intervention in a home nursing organization to prevent and treat comorbid depression in chronically ill patients
- 2009 STAP: Setting up and evaluating implementation of a stress management course.

TEACHING EXPERIENCE

Thomas More University of Applied Sciences

Lecturer (2013 – present)

- Applied Psychology & Technology (B-TM-Y03463)
 - o The purpose of this course is threefold. First, to provide students with a better grasp of the existing technological possibilities for psychological diagnosis, research, counseling and behavior modification. Second, to outline how psychological knowledge can be used to ergonomically optimize the design and usability of new technology. Third, to critically consider the behavioral and ethical implications of using various technologies.
- Supervising students' bachelor dissertations in applied psychology
- Guest lectures
 - o Bachelor courses on Health Psychology and Bachelor degree dissertation

University of Leuven

Guest lecturer (2015-2019)
